General Profile

Since 1999 Royal Intel is a leading Romanian crew manning agency. We integrate crew manning services to large multi-national clients in carefully targeted marine industry sectors.

Royal Intel is one of the few Romanian companies that can provide solutions to all range of Deck/Engine officers and ratings, auxiliary crew, engineers and repair teams and shipyard qualified and certified workers.

More than two third of our deployed crew is recurring by the rotation systems, successfully implemented together with our principals, over long years of partnerships.

We provide crew within a global framework of six major Service Lines:

- 1. Cargo ship sector (Tankers, Containers and Bulk Carriers)**
- 2. AHTS**
- 3. Passengers and Yachts**
- 4. Shipyard (on shore) sector**
- 5. Marine Technical Companies (repair teams)**

Quality Matters

- **To exceed expectations**
- **Set the industry benchmark for quality and service delivery**
- **Pro actively seeking our partners view**
- **Top management fully engaged in all partners related servicing**
- **We enjoy the challenge of changes**
- **Our customers find working with us easy and pleasurable**
- **Quick respond to any circumstantial changes**
- **We share common values**
- **Committed to quality**

From simply providing one seaman or up to full crew of any type and size of vessels, we always adjust our procedures to owners' needs and fulfill their requirements regardless the size of the business.

Services

Close relationships with all ship owners' and managers' departments enhance smooth sailing of vessels in regards with crew matters. Our optional all-inclusive Crew Management scheme is aimed to provide freedom-of-mind to the ship managers for all the crew operations related with the selection, deployment and successful completion of seafarers' contract of employment, such as:
