50+ MARINE PARTNERS 100+ SPECIALTIES 1 SOLID TEAM

SERVING YOUR SHIPS' NEEDS

WIMA - the Worldwide Industrial & Marine Association is a non-profit Business Association of marine oriented companies, whose main objective is to support and promote its members' activities, on a global scale.

Since our establishment in 2006, we have managed to successfully introduce **a new concept to the maritime market**; a network of certified companies with global reach, working together to effectively cover **any requirement, in every sector** of the shipping industry.

WIMA's members are active in the fields of:

- Ship Construction – New Buildings & Refitting
- Ship Repairs
- Ship Spare Parts & Supplies
- Ship Technical & General Services
- Manufacture of Marine Equipment

Over the years, we have steadily and successfully increased our members while maintaining the high standards we represent; WIMA's company-members number over fifty at this time – all leaders in their fields of expertise.

This alone provides our customers with **the benefit of finding the right service at the right time**, provided by reliable, certified companies, without having to go through the difficult process of sourcing the right supplier.

On behalf of WIMA and its members, we invite you to contact us with your inquiries, enabling us to prove the quality of our services.
